Financial Guidance & Planning

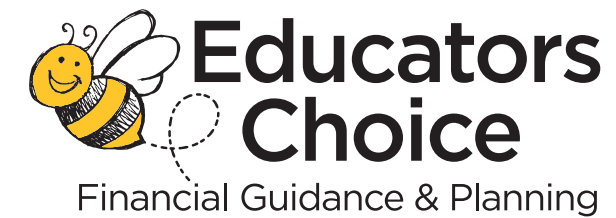

**Financial Wellness**

## In partnership with Creative Benefits for Educators

(owned by the local affiliates of the Florida Education Association), FEA members have access to financial education, guidance and solutions tailored to help those in the education community achieve their financial wellness and retirement savings goals.

Educators Choice is a custom-designed financial guidance and planning program powered by credit unions in your community. Through Educators Choice, gain access to customized workshops and no-cost one-on-one counseling to create your individual, unique, customized financial plan.

We strive to deliver high quality, comprehensive services from licensed qualified retirement planning professionals.

Through Educators Choice, you can prepare for and live well in retirement.

## The Credit Union Difference

Credit unions are not-for-profit, financial cooperatives owned by their members—and they exist specifically to help meet the financial needs of those members.

Just like the Florida Education Association, we focus on our members and put them first. We love our community and it shows – with convenient local branches, access to thousands of ATMs, exclusive sponsored events and philanthropic efforts throughout the community.

**We understand the unique needs of the education community and are committed to providing each member a path to achieve their financial wellness and retirement savings goals.**

## Our Mission

Like each FEA local affiliate, credit unions are truly local and truly care. We seek to improve the quality of lives for those who work in the education industry through a customized financial guidance and planning program.

Wherever life takes you, we're there to help – with the advice, products, services, and personalized attention you need at every turn.

## By your side for every stage of life.

We know it's not just about what we do – it's how we do it. That's where Educators Choice, Financial Guidance and Planning comes in.

We offer our members a variety of tools and solutions to educate and provide the right information to drive retirement readiness. Our simple yet comprehensive solutions help our members know where they are and where they're going.

## When it comes to retirement planning, it's important to stay focused—regardless of which phase you may be in.
